Testimonials

Kayleigh Hall

Development Manager

"Moyosore has a great attitude towards learning new languages and working on new challenges outside of her comfort zone. Always on-hand to help out others, sharing her knowledge and bouncing ideas back and forth"

Faizel Desai

Project Manager

"Moyosore is always ready and willing to learn new things, and thrives on a challenge. She has a great work ethic and always there to help and provide guidance to those around her"

Moyosore Banjoko

Junior Web Developer

Summary

As a Law graduate with a strong passion for technology and coding, I wish to fully transition into the tech field. My journey began with self-taught courses but the scion scheme aroused my interest in back-end development. I am now seeking a challenging and dynamic tech role where I can leverage my analytical skills and legal training, while continuously learning and adapting in the tech industry. My goal is to contribute to innovative projects and grow within an organization (long term) that values creativity, problem-solving, professional development and career progression.

Skills

HTML5 300+ hours

I am comfortable with semantic markup and general structuring.

JavaScript 75+ hours

Able to use vanilla JavaScript as well as jQuery and AJAX.

PHP 67+ hours

Understand core features and can build a HTML project and transform it into PHP and can connect my project to a database.

Adobe Photoshop 100+ hours

Experience with Photoshop for both web design and editing.

CSS3 & SASS 350+ hours

I can easily manage layouts with both Flexbox and CSS Grid. Also able to utilize SASS to make CSS code more manageable and easy to read.

SQL 67+ hours

Can interact with the MYSQL database by using CRUD operations which allow me to modify and query the database.

LARAVEL 67+ hours

A good understanding of the Laravel framework and how it is used to easily interact with databases. I can effectively use eloquent to manage databases by defining models, relationships and database migrations.

Git 10+ hours

Used occasionally whilst working on projects.

Treehouse

Treehouse is an online learning community, featuring videos covering a number of topics from basic HTML to C# programming, iOS development, data analysis, and more. By completing courses users can earn points, allowing them to track their progress and see how much they've covered

certain areas.

Total Score 12,811

Experience

ADMIN (Voluntary)

D'CLASSIC GROUP - Billerica

FEB 2023 - ongoing

- Managing the business ensuring it runs smoothly by staying on top of projects and tasks whilst anticipating the needs of workers and the owner.
- Answer calls for the business and the owner—redirecting and taking messages when needed
- Schedule meeting times, dates and venues.
- Making spreadsheets to organize and document confidential data.
- Researching to help the company find clients and evaluate where to improve.

Introduction to Scion Coalition Scheme

The Scion Coalition Scheme is an intensive, specially tailored training program being run by Netmatters in order to give willing candidates the opportunity to enter the industry as web developers. Under the supervision of senior web developers, scions generally aim to complete training within six to nine months. The course is intensive and therefore the level of learning achieved is extensive in a short space of time.

Education

2024-Present

Scion Coalition Scheme

- Undertook an intensive, specially tailored training program under the supervision of senior web developers in the industry. This course is 40 hours per week and simulates employment as a developer to ensure the trainee is prepared for full time employment.
- Studied front-end and back-end development including UI/UX design, mobile development, object-oriented programming and databases.
- Made a replica of the Netmatters webpage and a personal portfolio using HTML5, CSS, SASS, JS & PHP. Also created an admin panel using PHP and the Laravel framework.
- Volunteered to be a pod leader which meant creating meetings using 3CX and MS365. Was able to reach out to my peers within the course, provide help, ask for help and collaborate.

2018-2022

LLB LAW / University Of East London

- Graduated with a 2:1 in Options included commercial law, client practice, criminal and civil litigation.
- Observing real court cases and taking notes also participated in mock trials to build advocating skills.

Hobbies

Creating games

I research indie games as I want to eventually create my own online game reminiscent of the ones I use

Gaming

In my spare time, I like to play games on my pc, mobile and PS4, my favorite game so far is Dead by Daylight. I also play virtual world games and have created in-game items which I gained revenue and photoshopping skills from. Currently, I am working towards mastering Blender to make 3d mesh models other creators can derive.
